# Going Green Initiative

Gore Brothers is dedicated to reducing our carbon footprint.

As you may well imagine, the production of transcripts in mass quantities is a drain on our planet's natural resources. This is why Gore Brothers has started our Going Green Initiative. Besides making changes in the office to help in this effort, our transcripts and exhibits are sent using recycled paper, envelopes and binders. We also offer complete digital only distribution through our DepoLaunch software and our secure Online Repository.

Here's how you can do your part to help the environment and save money for you and your client:

- Save \$17-\$40+ per order on shipping and handling by taking electronic delivery only or using the secure Online Repository to view/download transcripts and exhibits.
- When scheduling your next job with us be sure to say you DO NOT require delivery of a hard copy of the transcript and exhibits and we will plant a tree in your honor through the Plant-It 2020 Foundation.

Find out more about going green with Gore Brothers! Call us at (410) 837-3027 or email us at [reporter@gorebrothers.com](mailto:reporter@gorebrothers.com)
